

Telecommunications:

General info: 212.870.3012

The Interchurch Center (TIC) maintains a secure, reliable, and available cost effective voice and data network. Subscribers (tenant agencies) to our systems derive all of the advantages of available technology without the upfront investment required by tenant owned systems.

Agencies get high speed internet access, leading edge features and functionally delivered over quality control T1 for voice and DS3 for network connections.

- Access to Tier 1 carriers and voice/data providers
- Increased productivity
- One point of contact (24/7)
- Knowledgeable support staff a call away
- Simplified call accounting (billing)
- Reduced capital expenditures
- Courtesy wireless service in the cafeteria and lobby conference rooms
- Video recording for events
- Projector and microphone setup
- Internet setup for new tenants
